Iquka download iinketho ukuba umqhubi-kuphela. Get connected to the Internet and connect to the World Wide Web at the same time!Q: How to show a web page without opening default web browser in Selenium WebDriver I am using Selenium WebDriver for testing of application. How to show a web page without opening default web browser in Selenium WebDriver. My code is: driver = new ChromeDriver(); driver.get(""); It is opening the default browser and showing the page in it. Please help me in this. A:

If you want to avoid opening any browser you can try this approach: FirefoxProfile profile = new FirefoxProfile(); profile.setPreference(InternetShortcut.NAVIGATE_BY_URL, "true"); profile.setPreference(SharedPreferences.LAST_BROWSER_URL, ""); driver = new FirefoxDriver(profile); 1. Field of the Invention This invention generally relates to an image data output apparatus, a management method, a program, and a recording medium. 2. Description of the Related Art Recently, the digitization of image data progresses and a number of image data such as text images, photographs, and the like are distributed by means of communication media such as the Internet or facsimile. Meanwhile, a method of distributing image data is proposed in which image data on one item is distributed at a time to thereby effectively realize distribution of a large number of image data. In the method of distributing image data, it is required to perform authentication processing (authentication processing that allows only users authorized to use the image data to access the image data) and encryption processing (encryption processing for protecting secrecy of the image data) in order to prevent illegal use of the image data. Meanwhile, Japanese Laid
